FOR IMMEDIATE RELEASE

U.S. Route 101 Construction at Old Redwood Highway

Construction to Impact Local Traffic Friday, May 29 – Sunday, May 31

Petaluma, Sonoma County –The Caltrans contractor is currently raising the level of the roadway to the east and west of the U.S. Route 101 Old Redwood Highway interchange. On Friday night, May 29, and Saturday night, May 30, the contractor will reduce traffic on Petaluma Boulevard North/Old Redwood Highway to one lane in each direction. Drivers will still be able to reach on-ramps, but the right lane used to enter the freeway will be merged with the left lane. This merging of traffic is expected to cause travel delay on Petaluma Boulevard North and Old Redwood Highway.

Construction Impacts

- Local drivers will notice traffic delay due to the temporary lane configuration.
- Residents may notice increased noise from construction and mandatory backup alarms.
- Lane closures on Old Redwood Highway/Petaluma Blvd. North will take place Friday night, May 29, from 9 p.m. to 7 a.m., and Saturday night, May 30, from 8 p.m. to 5 a.m.
- On-ramps and off-ramps will be closed as necessary on Friday night, May 29, and Saturday night, May 30, from 10 p.m. to 6 a.m.
- **Optional Detour:** to avoid construction activities use Corona Road or East Washington Street.
- **All work is weather dependent and will be rescheduled if necessary.**

Construction Timeline

Many of the construction activities will be completed in June 2015, although some miscellaneous activities will continue into July 2015. The project is expected to be complete by the end of July 2015.
